

Feed Testing Plus Services

Feed Testing Plus Visual Quality Assessment

HAY • PASTURE • SILAGE • GRAIN • TMR • PELLETS

Our Feed Testing Plus Visual Quality Assessment Services are founded upon:

- ✓ **Feed Testing backed by DAIRY ONE (USA)**, the world's largest Feed Testing Laboratory - giving you fast and consistent results to the highest international standards, right here in Australia!
- ✓ **Personalised service on your farm** or via our regional Quality Assurance Centres.
- ✓ **Visual Grading and Assessment of hay and grain** backed by Feed Central's 15 years of experience in hay inspection and marketing across all regions and all species.
- ✓ **Over 100 standard testing parameters available** including over 40 Rapid NIR Feed Analysis results (including energies, fibres, proteins and minerals).
- ✓ **Full array of special tests available** including DCAD, Wet Chem, Chemical Residue, Prussic Acid & Nitrates.
- ✓ **Rapid 24 hour turnaround** of results available.
- ✓ **Ask our friendly team about our FREEPOST Sample Bags and Accounts.** Call 1300 669 429.

Why feed test?

Many farmers already utilise our Feed Testing service to improve their bottom line... One unit of Energy (M.E.) can be a \$30-50,000 per year difference to the average Aussie dairy.

Feed Central are expert marketers of hay and grain. We know that Feed Testing differentiates your product and helps you realise its true value.

How does it work?

Our system works via a network of Quality Assurance Centres / Laboratories and Accredited (on-the-road) inspectors throughout regional Australia.

Our labs receive samples direct from the public for rapid analysis; while our inspectors provide a more extensive and personalised on-farm inspection service.

Feed testing is easy! Next step:

Simply complete our **SAMPLE SUBMISSION FORM** (see overleaf) and forward it with your sample to your nearest Feed Central office.

If you require **FREEPOST Sample Bags**, call 1300 669 429.

What do you get?

Within minutes of the completion of your test, you will be issued with an industry recognised **Feed Central Quality Certificate**.

As appropriate, the Quality Certificate includes:

- Photos
- Visual Grading & Descriptions
- Feed Testing Attributes

The Quality Certificate gives you all the information you need to sell your hay or make smart buying and feeding decisions

"I Feed Test all my bought-in and home-made forage and grain; that way I know what I am feeding, letting me plan my grazing and rations. On my farm, one unit of energy can make a \$30-\$50,000 improvement to profit. The other tests like Protein, NDF and Minerals are also vitally important to me. Feed Central have partnered with Dairy One to bring the world's best Feed Testing technology to my district, so I am happy to support them."
